Dear Ivor

Huge apologies for my tardiness in saying thank you but I really wanted to express my gratitude for such a lovely evening. The way we were hosted was impeccable and it was a true privilege to be part of the 83rd family for an evening.

The company was wonderful and I really enjoyed the question and answer session, which I confess made me think hard because of the depth, knowledge and perception behind the questions. And what a find the hotel is and please if you have a chance pass on my thank you to Martin at the Peacock for sorting our taxi out.

I left feeling very much that I had been 'welcomed into' a very special annual occasion and a realisation that I need to do some sorting with regard to my own (very much junior -as politely pointed out) 128 Entry.

There are many good things that I love about my work and occasions like being able to share an evening with the 83rd ranks up amongst the very best.

Once again, thank you for your wonderful hospitality and I wish you all many more annual gatherings in the future.

*Yours
Peter*
